#### COMMERCIAL.

The business aspect continues favorable, and the feeling among business men is still hopeful. Money here is in abundant supply for business purposes, and there is no extra demand. The Baltimore papers quote the banks in that city as doing a good business at 6 per cent for regular discount, and loans on accepted security are made on the street at the same figure. In New York the ruling rate for call loans continues at 4a7 per cent, with 6a7 per cent gold, which is only a trifle above 7 per cent currency, the excaptional rates. Prime mercantile paper is 7:8 per cent. Gold rates fluctuate but little, and the speculative demand is light. Coc't, bonds are steady, with hardly any change in quotations. State stocks are quie', with but little d ing; Virginia consols closed yesterday at 561 bid, 571 asked; coupons sold at 837. Railroad securities are dull; B. & O. stock weak, with very little disposition manifested to operate; small sales at 1057 and 106, closing at 105 bid, and 1062 asked. In local stocks there there is nothing doing, but we quote:

THE LATE W. O. HENDERSON. -The Leesburg Mirror, noticing the sudden death of Mr. Wm. O. Henderson, in this city, says:

"Mr. Henderson was born and reared in this town-he was in the 24th year of his age, and the only son of Mr. F. M. Henderson. As child, boy and man, he was all that an anxious father could desire. Bereft in infancy of maternal leve, and for four years of his youth, without paternal counsel, he grew to man's estate with a character fully developed for the highest honesty, the strictest integrity, and a manly independence that seerned to lean upon another for that which could be secured by his own honest toil. He was a young man of good mind, noble impulses, and an energy, perse-verence and industry the more to be admired because too seldom found. But in the vigor of his youthful manhood-in the full enjoyment of the love and esteem of friends and acquaintances, and at the very hour when a doting tances, and at the very hour when a doting charge of a river pilot, ran ashere at Peach Or- rate the stomach with Hostetter's Stomach Bit-father and a lately bereaved sister were look- chard, near Lower Cedar Point. NARROW ESCAPE -The Port Tobacco Inde-

pendent says : - . 'On Wednesday of last week Miss Emily E. Speake, accompanied by a colored girl and boy, started to cross Port Tobacco Creek for the purpose of taking passage at Chapel Point in the steamer Express for Washington. There was also in the boat a few bags of wheat being taken to Chapel Point mill. The boat appears to have been in a leaky condition, and when well out from the shore, near the channel of the creek, it began sinking, and was finally cap sized, throwing the whole party to struggle for their lives in the water. Miss Speake sank twice out of sight. Their cries attracted the attention of persons on the shore, who hastily put off to the reseue. We are glad to say the efforts of the rescuers were not unavailing, as the whole party were brought safely to land, all of them being in very exhausted condi-

WANTED MORE NOTICE. -Yesterday Samuel Skidmore swore out a warrant against a man named Garrett, a tenant who occupies his house across the canal, for rent due since the first of January, 1877. The warrant was placed in the hands of Officer Harper who levied upon the goods and chattles of Garret. Clarrett appeared at the office of Justice Padgett after the goods were removed from the premises, indignant that Skidmore had not given him notice of his in tention. The Justice thought Mr. Skidmore was derilect in not giving Garrett notice of his intention to distrain, but inasmuch as Skidmore had not done so, the law would in such case be dealt out to him. The man and wife without children, both at service, occupy the house of the elaimant, Skidmore, and pay him no rent.

THE CANAL. - The Cumberland Alleganian says: "The sand bars and washings on the ernal, occasioned by the great storms of recent date, prevented boats reaching Georgetown and Alexandria, and consequently the demand for boats is very great here. A large number are now on their way up, and in a day or two the

demand will be supplied." The deposit of sand in Rock creek, eaused by the recent storms, has been cleaned out, and that on let to the C. & O. canal is now in nav-

THE GREAT LONDON SENSATION. - Oa Tuesday evening next there will be presented for the first time in this city The Great London Sensation Chost Illusion, or Edeoscope exhibition. It is the most wonderful exhibition that has ever appeared in this country. The London Standard says: "The exhibition is well calculated to exlist the enriosity of the scientist and the speculator upon modern mysteries, and their cause and effect, as the more e-edulous believer in the supernatural doctrine of spiritualism. Certain is it that, without the ques ionable aid of a dark cabinet spirits appear and disappear in full view of the audience, and in a blaze of light, which latter phenomenon is at variance with the old custom, as chronicled in the romances of the middle age. The Baltimore Evening News says :- The Ghost Show now exhibiting at the Maryland Institute, is really worth a visit, the scenes presented being carefully prepared with an eye to artistic effect which cannot fail to please. Wherever the per formances have been given the press has been loud in its praises of their excellence; the London Telegraph says it is a scientific and classic entertainment absolutely and truly wonderful. The Berlin Staats Zeitung says: "It is the most wonderful exhibition we have ever seen here." The London Times: "It has proved the greatest success this season." In America, too, the press has accorded to it the most unqualified

Canvassing enterprises have so often been represented by unreliable persons coming into our midst and giving us the incontestable merits of their unparalleled works (?) that a really valuable book such as this often meets coldness at the hands of some who have neither the time per inclination to present. examine and discover its true character. But for this book, giving information about the two great peoples now in conflict before the eyes of the world, we bespeak the heartiest reception. Its thrilling accounts of Russian and Turkish life, its solid facts exhibiting national character, its wonderful narratives of atrocities and outrages, its graphic sketches of the men who are so well known to us in daily dispatches, and withal a collection of illustrations that portray characteristic men and scenes of the war most vividly, all combine to make the "Cross and Crescent" a desirable book.

DUKE STREET, .- The contract for repaying Dako street was surrendered yesterday by Mr. Hodgkin, the contractor, to the Committee on Streets. The street has been torn up for several weeks, and much complaint was made by persons living thereon, some claiming that the malarial sickness, which has prevailed in that section of the city, was caused by the miry condition of the street bed. The Committee on Streets notified the contractor, some days since, to complete the work at once, and he, finding himself unable to comply with his contract, has given it up, as above stated. The city force, under Superintendent Clifford, was put to work there this morning, and will push the job through rapidly, after which they will return to

There is no more talk of a combination but an effort to combine when in caucus, and after the strength of the different candidates has been tried, may be attempted by those most opposed to Mr. Randall.

HOW TO GET AN APPETITE. - To a man or woman without an appetite "the best the market affords" presents little or no attractions. The sooner such a hapless individual puts the gastric organ in a condition to enjoy the edible comforts which a bountiful providence has proerly, and, since good digestion is the parent of appetite, give birth to a desire for food at the intervals appointed by nature. With chronic want of appetite are usually associated nervousness, biliousness and constipation, three evils which are speedily overcome by the Bitters. All persons of a dyspeptic or bilious tendency should use this healthful tonic daily, or at least three or four times a week. A pursuance of this course wi'l soon insure and confirm a radical change for the better in the condition of the stomach and associate organs. oct 8-003t
